HALLEY'S REDISCOVERED.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN JOSE, Sept. 15.—Halley's comet,

which makes its appearance about the

age once in every seventy-five years,

has been rediscovered by Heber D.

Curry and photographed with the aid

of the Great refracting telescope at

Lick Observatory, Mt. Hamilton.

The comet was first discovered by

Prof. Wolff at Heidelberg, but at present

can be seen only with the most

powerful instruments. It will now

grow rapidly brighter, according to

Director W. W. Campbell of Lick

Observatory.

FINDS COMET.

## FOR SALE—

## Houses.

RESIDENCE ON 50-FT. STREET, RESIDENCE ON 50-FT. STREET. BUNCO. BUNCO.

We hardly think there is any two-story residence in the city at this price, that contains so many features, and convenience and beauty as this home. It's a great pleasure to own a home of this size on 50-ft. street, with a greater driveway, will cost a home, surrounded by fine residences.

Very attractive style of architecture; hardwood floors throughout and good furnace; reliable heating system, make a very inviting, comfortable home, leading from the back is the hall is very attractive.

The living-room is one of those rooms that demand attention, large picture windows, an open fireplace, designed so it can be used as a den, and every convenience.

The hall is just as inviting; the walls are paneled, and many windows, from the dining-room; the kitchen, paneled with drawers and cupboard; the dining room fitted with large sink good plumbing.

The bedrooms upstairs all elegantly finished with many cupboards and drawers. The windows are one of the most attractive features. Bathrooms are very spacious, there are two, and every convenience.

Yard is all improved, lawn, flowers, trees, and shrubs, and every arrangement can be made to buy the property on terms.

ALTHOUSE BROS., 50 S. Broadway, Main 252. Home 252.

FOR SALE—

(On Andover.) The above is a fine, comfortable home, in the charming Wilshire section.

Phone 3404.

Part cash, balance to split.

I have just completed a one and hearing 2-room bungalow, 10' x 12', built on 50-ft. deep lot, located on a fine residential avenue. If you are looking for something with a little artistic taste and refinement in thought, will direct you to the most charming, most complete, and strictly up-to-date 2-room bungalows to be found anywhere.

The location is 25 and 35 Andover Avenue, surrounded by beautiful and expensive homes. You can have a car, go off at 4th and Andover and walk one block.

Open for inspection Sundays 1-6 p.m., at any time on other days.

G. G. BONNOTTE, Owner and Builder. Phone 3108.

If what I have already built is not meeting your wants, we can build you on any of my lots on suitable terms.

## NEWS AND BUSINESS.

## The Missing Congress.

James Irving and Douglas White were appointed yesterday as delegates to represent the Chamber of Commerce at the American Mining Congress to convene in Goldfield on the 27th inst.

## Important Improvement Meet.

The North, Northeast and Northwest Improvement Association will meet this afternoon at 4 o'clock at 160 North Spring street, ground floor, Masonic Temple, and discuss what will be discussed, and all property owners of the section are invited to attend.

## Mrs. Missing Husband.

Nelson Koan, who was reported missing from the Flagstaff Home, near Kingman, was found yesterday at Santa Barbara, Calif., by his wife, to be slightly demented. He was dazed away, and with the instinct of a homing pigeon, found his way back to the town in which he had lived for twenty-two years.

## Bird Singers.

Mrs. William Baker, the blind singer, who has been featured at the meeting of the Los Angeles W.C.T.U., this afternoon at the First Methodist Episcopal Church, 11th and Hill streets, Mr. and Mrs. Baker will sing a solo as the singing part of the programme during the meeting. Mrs. Baker will also give a talk in which she will tell of methods used in educating the blind.

## Celebration to Perpetuate.

The first annual celebration of the San Geronimo Mission Society is to be opened at 8:30 a.m. on Saturday, Sept. 14, with a special programme Sunday afternoon.

The glamour cast by early Spanish days, historic scenes and the bearing to mind of the many beautiful traditions and practices fostered in the early days, are a few of the points that the society will endeavor to bring out and perpetuate. Difficulty is found in finding a programme that will be of more than purely local interest, but it is hoped that this will be overcome.

## BREVITIES.

Pretty hot the last few days, but nevertheless not enough to keep you from Fall Overcoat before long. When do you want to you think of us? For our new Fall Overcoats for Men, Boys and Youth, for Street, Dress or Auditorium, we would like your careful attention. Prices \$15 to \$45. Harris &amp; Frank, 427-435 S. Spring St.

British subjects are requested to send their addresses to the undersigned, British Consul, whose ownership property in California are advised to do so, will be appointed resident executors. Form gratis on application. C. White Mortimer, British Vice-Consul, 4-5 International Bank Building.

Philip J. Gribble and Mrs. Ida M. Hobbs will form a Juvenile dancing class Saturday, October 2, at 1:30. Adults' beginners' class Monday evening, October 4, at Sixteenth and Flower. Reference required.

Babies to 17" will want Adas, addressed to the Branch Office, No. 121, South Spring, may be left for delivery at the Main Office. They will be promptly sent to the Branch Office.

A pair of Oxfords at a small try A. J. Hamilton &amp; Son, 81 S. Broadway.

W. C. Stone, theatrical costumer, moved to 406 South Broadway. Sixth floor.

Natick House serves fast meals 24; Sunday evening dinner \$2. Mrs. H. Korn, Tailor, removed 740 S. Edwy. K. Korn, leading oculist, 415 Spring.

## UNDELIVERED TELEGRAMS.

There are undelivered messages at the Western Union Office for Mrs. L. E. Martin, Gurney E. Newlin, Mrs. McPherson, Mrs. E. A. Walker, W. T. Meek, W. J. Seal, H. H. Bakerman, J. A. Allen, Mrs. E. L. Wadsworth, C. H. Pepper, Capt. W. A. Duncan, Mrs. Bell, R. D. Davis, Mrs. F. Y. Stanborn, A. R. Dennis, J. H. Devereaux, Helas Motor Co., B. S. Schenck, Mrs. L. M. Schenck, Mrs. E. Archibald.

At the Postal Telegraph office for F. L. Hart, B. W. Gunn, Mrs. A. M. Molton, Miss Florence Townsend, Mrs. Herbert Smith, Ray H. Hiddlecom, F. H. Hamson, Mrs. G. S. Sandercock, J. H. Jones, Miss May Belmont and F. E. Proctor.

## MINING MAN TAKES BRIDE.

The parlor of Hotel Hayward, recently opened, appeared to be adorned for a special floral display of some sort, owing to the wealth of flowers scattered about. It was not hard to ascertain that the wedding of the Rev. J. E. Bowes, who has recently accumulated considerable wealth by mining operations at Bisbee, Ariz., took for his wife Miss Elizabeth Anderson of the same place. Rev. Dr.

Walker of the Immanuel Presbyterian church performed the ceremony, after which luncheon was served at the Hayward cafe. H. D. Anderson, a brother of the bride, acted as witness to the marriage, which is intended as a surprise to friends of the contracting parties, now in the Territory.

ALL SIDES.  
PURSES THE DISCUSSION.

FEDERATION CLUB HEARS TALK BY DR. LOCKE.

Declares Nobody Satisfied and Calls for Patriotic Action—Says This Not a Generation of Animosities—Some Dissenters from His Bible-in-Schools Commission Plan.

Dr. Charles Edward Locke, by invitation, addressed the Federation Club at its noon luncheon yesterday on the subject of "The Bible in the Public Schools."

He argued that the chief purpose of the common schools is the formation of character, and that there can be no permanent principles of character indicated, unless some standard of morals is accepted.

"A foundation of ethics and jurisprudence that was accepted by the nation," said Dr. Locke, "ought to be recognized in the popular education of the nation. For its refining moral influence, the Bible should be returned to the public schools."

He urged that the leading educators who are urging the use of the Bible because of its incomparable literary quality, and explained again his proposition for the adoption of the common school as a permanent such excerpt from the Bible as shall be without denominational or sectarian bias. Continuing, he said: "We are not satisfied with the public schools, and the Roman Catholics are not satisfied; the radicals are not satisfied; the Protestants are not satisfied. Can we not get together as patriots? This is the generation of animosities and of dissidentions; we should decline to inherit the bitter antagonisms of other years, and strive to adopt some methods of work, and to meet on some common ground."

"This is not an atheistic nation. This nation believes in a Supreme Being, and we must not under the pretense of obligation to pay any regard to the wishes of atheists. Only the fool hath said in his heart there is no God."

Would not a sensible man, representing the leading sects and denominations, to make such a compilation from this immortal Book as that any day may come when a non-denominational bias, our youth shall come in contact with the wisdom of Solomon, the inspiration of David, the thrilling episodes in Hebrew history, and the great moral and spiritual ideals could not be equalled from all the libraries of all the years."

He will speak on the matter before the Federation Council on Tuesday and they in turn will present it to the meeting of the Church Federation on October 4. Dr. Locke has received many complimentary letters, as well as many complimentary ones, and he will speak on next Sunday.

On Sept. 16, Wednesday Rev. Mr. Cresswell, who has a hand in the same sort of a contest in Wisconsin some years ago, will address the Federation Club at 7:30 p.m. T. Shadrack, president of the American Federation, is to speak at the same length on the subject, saying:

"We object to the introduction of any condensed form of the Christian Bible in the public schools. We object to any selection as would be acceptable to Jews, Catholics, Protestants and anti-Christians."

Rev. Cannon J. B. Good, writing from Pasadena, thinks it is a good idea to have a book on account of what is already allowed in the way of sacred moral literature in the public schools. He refers to "Readings from the Chicago Women's Educational Union" as an evidence of what has been accomplished in Chicago.

## RUSSIA READY FOR WAR.

Native Returning from Siberia Says Troops Are Being Massed and Talk Is of Hostilities.

ASSOCIATED PRESS NIGHT REPORT.

VICTORIA (B. C.) Sept. 15.—Russia is massing a great army in Siberia, four or five barracks are being built and extensive fortifications made, and speculation as to a second war with Japan is a common topic of conversation among the Russian military men," said A. E. Denbigh, president of the Victoria Improvement Association.

"There are 50,000 troops in Siberia," said Mr. Denbigh. "Troops are being recruited at all points, and there are many more to come."

Rev. Cannon J. B. Good, writing from Pasadena, thinks it is a good idea to have a book on account of what is already allowed in the way of sacred moral literature in the public schools. He refers to "Readings from the Chicago Women's Educational Union" as an evidence of what has been accomplished in Chicago.

## OPEN WAR ON LEMON RATES.

Citrus Protective League Will Fight Increase.

Higher Freights Threaten to Retard the Industry.

Benefit of New Tariff Lost If Railroads Succeed.

Prompt action was taken yesterday by the Citrus Protective League to combat the efforts of the railroads to increase the present freight rates on lemons from Southern California to the eastern markets. At a meeting held yesterday afternoon the officers of the league, who authorized the league to take such action as they deemed necessary to protect the interests of the growers.

F. Q. Story, chairman of the Executive Committee of the league, announced after the meeting that, while the plan of action has not been fully formulated, a movement was put under way to resist the rise in rates.

The new freight rate, which the railroads announced on the 1st of October, will add 15 cents per 100 pounds for transporting lemons to the East. The present rate is 21; the proposed rate is 31.

### RAILROADS TOO HASTY.

"It was the feeling of those at the meeting that the railroads are exercising undue haste in trying to wrest from the growers the benefit of any increase in tariff which the government awarded to them after careful investigation of the argument that the success of the lemon industry absolutely demanded the protection given by law.

The indignation of the officers of the league was increased by the knowledge of the fact that the railroads have been doing much more profit than the growers.

There is a rumor to the effect that the freight rate on oranges also is to be increased. 19 cents per hundred pounds. The present rate on oranges is 11.5; it may go to 12.5.

The advance on lemons alone would cost the growers of Southern California at least \$20,000 a year. It is asserted, and it is pointed out that this is far more than they gain through the advance in the tariff authorized by the last Congress.

### WORSE THAN EVER.

In other words, the action of the railroads in raising freight rates will place the lemon industry in a condition worse than that which existed before Congress strengthened the tariff.

If the suggested increase is made in the new freight rate, the growers would be mulcted to the extent of from \$70,000 to \$80,000 a year.

In order to make an advance in freight rates the railroads are compelled by law to give thirty days notice of the proposal. After the new rate goes into effect, the shippers will have the right to make an appeal to the Interstate Commerce Commission, setting forth reasons why the change should not be made. Pending a decision on the appeal, however, the new rate will remain in effect.

### PREPARE FOR WAR.

It is understood that the Citrus Protective League will proceed at once to gather data to support the stand it will take before the Interstate Commission. The league has engaged in many similar fights and its officers are well informed in all matters pertaining to such a contest.

"Coming just at a time when the lemon industry of the State was in a way to benefit through the advanced tariff, the action by Congress is in the height of cruelty for the transportation companies to take this action," said a prominent grower yesterday.

"The increased tariff permitted us to compete more successfully with less desirable fruit that comes from abroad, and without raising the price to the consumer."

### HIGH CONSUMER.

"This proposed increase in freight rates will mean an advance will have to be made in the prices of all grades of our lemons to the consumer, or that the shipper, already dividing the returns with the transportation companies, will have to stand the additional loss, without reaping one iota of benefit from the customs tariff."

In the face of the increased freight rate, growers will be reluctant to increase the acreage of lemons, though many of them had made plans to this end under the protection of the tariff.

Under a form of government such as that whose blessings we enjoy, the shippers and the State are to be maintained and distinct institutions, the duty of each individual to exercise his right of suffrage as a citizen, and not as a member of any religious denomination.

"Our system of irrigation and hydraulic engineering of the government of Japan, who is ministered at the Angeles from Taihoku, arrived yesterday morning and immediately started on a tour of inspection. He went among the gardens and groves of the country. Returning late in the evening, he expressed his delight in no small terms. His English was very comprehensive, and was accompanied by a pleasant smile.

"Your system of irrigation in this State is as fine as that anywhere in the world," he remarked, and he is an expert in the matter, having been twice in Egypt, inspecting the great irrigation systems of the Nile, and in different European countries where irrigation is now in vogue.

"I find wherever I have been that the irrigation plants are not only well constructed, but are well kept up, which is not true of many countries.

"Your rotation of crops, to people of Japan and China, is a wonderful thing, and we are only learning the possibility of having two and three crops on the same land in the same year. It is further evident to me on these matters that I have been traveling through California the past month.

"I must stay here will be shortened by reason of the fact that my country has just sent word to me, saying that I am to hasten on my journey and go to England, that is to secure some information on hydraulic engineering. Therefore, I must leave here tomorrow morning to proceed to Phoenix, where I shall visit your irrigation system, and then across the Colorado, which to irrigation experts is one of the greatest achievements of the present time."

Deeply interested in the progress of irrigation in the southern terminus of the Pan-American in Mexico, at Mariscal, Chiapas, these south along the Pacific Coast, touching at San José, Guatemala, and then through Salvador, with a branch to San Salvador, through Nacpane and Choluteca. Honduras, and continuing through David and Santander.

The intention of the Pan-American is to connect with the southern terminus of the Pan-American in Mexico, at Mariscal, Chiapas, these south along the Pacific Coast, touching at San José, Guatemala, and then through Salvador, with a branch to San Salvador, through Nacpane and Choluteca. Honduras, and continuing through David and Santander.

When the Regaldo concessions were granted a large amount of steel, ties, and construction material was shipped to La Union, and surveys made along the Pacific Coast around the Gulf of Nicoya, and the interior of Costa Rica, Honduras, Nicaragua and Guatemala, and is negotiating for others that will effectively take care of the entire route to Panama, the Isthmus of Panama.

## THE PUBLIC SERVICE—In the Courts and Offices.

**SUMMARY OF THE DAY.**  
All dogs, excepting two classes, must wear muzzles in the streets of Los Angeles from tomorrow on if the Mayor signs the ordinance passed by the Council yesterday.

Henry Kennedy brought an action yesterday against J. M. Neeland and J. W. Evans for \$1,750,000 alleged to be due on account of services as a promoter of the Pan-American Railway Company.

Nephews and nieces of James D. Watson, began an action yesterday, to set aside a deed for a Glendale ranch worth \$15,000 executed by Watson to Fred E. Wilke two days before Watson died in January, 1908.

Judge Bordwell disposed of a number of minor cases yesterday and informed attorneys that he desires they stipulate in regard to ultimate facts in order to shorten the hearing of the cases which hearing is to begin in his department, October 1.

A quarrel growing out of the fact that Justice Williams yesterday gave D. H. Head, manager of the Westside station a dispensation for violating the license ordinance may result in charges being preferred against Sheriff H. L. Varey.

Justice Frederickson yesterday, held that all city ordinances are as valid as they were before the annexation of San Pedro.

AT THE CITY HALL.

ACTS QUICKLY  
TO STOP RABIES.

**COUNCIL DOES AS REQUESTED  
BY HEALTH OFFICER.**

Adopts Ordinance Requiring the Muzzling of All Canines, With Some Exceptions—Tourist's Pets and Baby Bakers Immune from Wicked Catchers.

Because one canine among the thousands in Los Angeles, like Goldsmith's dog of Islington, "went mad and bit" a horse, all the other dogs must wear muzzles in the streets from tomorrow on, if the Mayor signs the ordinance passed by the Council yesterday.

"There are only two exceptions—tourist dogs" and dogs that are not yet rabid.

A "tourist" dog is one owned by those transient in the city, or merely sojourning here.

A dog that is not yet a dog is one which is a native pup or daughter, not four months old. This is a part of the ordinance which makes the humane inspector and his deputies judges of the age.

The Council spent two hours discussing dogs, rabies and humane affairs yesterday. The discussion began when the muzzle ordinance—drawn by Health Officer Powers was presented. Healy was in fear that it was a scheme of some one who had a corner on dog muzzles, but gave it up when Dr. Powers said that a crisis in before the health department that only drastic steps can relieve.

He told with fidelity to detail how a dog had bitten a horse, and how carefully he had examined the horse and found the horse died of rabies. The animal bit itself and its stall and tried to injure to others.

"As sure as I am before you that was rabies, so sure is the human health officer. I have seen rabies in men and horses and dogs, and I tell you this horse had hydrophobia. This dog bit other dogs and infected them. Where there is one, there can be ten, but you wish to protect human life. Los Angeles from the danger of hydrophobia you will pass this ordinance."

It was passed quickly and unanimously, stipulating that the dogs and children are too good friends to endanger any children. The ordinance will reach the Mayor today, and if signed by him, will be published tomorrow morning. It is to be effective at once, as it has an emergency clause. It is a drastic measure authorizing the police and humane officers to kill all exposed animals. Dr. Powers said it has caused to a question of dogs, not of human beings.

The control of the dog license, inspection and pound passed from the Humane Animal League to the city commissioners, and the Council now commences to process. Miss Mathewson, president, and Mrs. Luthe, secretary of the league, were present to advise in the making of the new ordinance, and Commissioners H. H. Schmidt and F. C. Schmid were also present. For the first time everybody seemed happy over the situation.

The ordinance gives the commissioners a superintendent of a salary of \$125 a month, and eight assistants at \$80 a month each, and a clerk at the same salary. There is to be no poundmaster, but a future one will be superintendent of humane animal work.

No change has been made in the license fee—\$2—and the pound fee of \$15 is retained. The ordinance defines a dog as any animal that has harbored any animal for fifteen days or more.

"When is the dog?" asked the City Attorney.

He was brought in six months after birth. Healy and Lyon thought four months. But Blanchard, the oracle, declared a dog was a dog or a dog whenever he is "independent of his master."

This foisted the Council for a minute, until Champitt asked if that meant after he was weaned, but the sage of the Ninth Ward only smiled. It is finally decided that any pup that lives four months in the care of the ordinance ought to pay a license.

There was a suggestion from Commissioner Mathewson that weight of a pup be the basis of license, but the "premises between toy terrier and a Newfoundland pup discounted his suggestion before he completed his explanation.

The ordinance provides that all money collected from dog licenses or pound fees shall be credited to a fund known as the "Humane Animal Fund" and that the payment of the license fee for five months is expected to be disbursed at once and all the bills paid.

An attempt was made to interject a section in the dog ordinance requiring vivisection, but Dr. Powers and others protested against such an interpolation, and the Council cut it out. Dr. Powers explained that vivisection is not necessary on animal subjects for the benefit of humanity. Wallace declared it is a question that cannot be settled in a few lines in a dog ordinance.

Three Millions for Aqueduct.

Acting on telegraphic advice from City Treasurer Hanon, who is in New York, the Council yesterday ratified a decree of the commissioners of City Tax to A. H. Leach & Co. The principal

received by the treasurer was \$2,900,000; in addition there was \$14,250 premium, and \$37,125 accrued interest, making a total deposited in New York to the credit of the city of \$2,912,400.

**MUNICIPAL MUSIC.**  
On motion of Wallace yesterday the Council ordered the preparation of an ordinance creating a Municipal Band Commission, which is to have charge of the band, which is to be appropriated in the budget for municipal music in the parks during the coming fall and winter season.

**CITY HALL BRICKS.**  
The City Engineer has recommended that Third street, from Figueroa to Boylston street, be paved with vitrified brick.

**STREET BRIDGE.**  
The City Engineer, contractor for the Second Street bridge, has been given until February 1, 1910, to complete the work. The Engineer reported that the bridge is only 45 per cent. done, and that only twenty-one men are at work. He said he would like to appear and receive notice that there will be no extension of the time fixed.

AT THE COURTHOUSE.

SUES FOR NEAR  
TWO MILLIONS.

ASKS SHARE FOR PROMOTION OF  
RAILROAD.

**PLAINTIFF MAKES STATEMENT**  
OF HAVING FURTHERED TRANSPORTATION  
IN MEXICO BETWEEN SAN GERONIMO  
AND THE GUATEMALAN FRONTIER—Tells of Concession from  
Government.

An action involving nearly \$2,000,000, alleged to be due for services in promoting the Pan-American Railroad, running from San Geromino, Mex., to the Guatemalan frontier, was begun in the Superior Court yesterday.

The plaintiff is Henry Kennedy. The defendants are J. M. Neeland and J. W. Evans. The complainant recites that in 1900 Neeland obtained information that the republic of Mexico had taken over the Pacific & Chiapas Railway by way of forfeiture and seized the rolling stock, cars, etc., of the line, which the company had placed upon the right of way granted by a concession of the Mexican government.

It is further alleged that Neeland had no money, but agreed that if Kennedy would secure the necessary capital to form a company and take over the concession, both would share the profits of the corporation. The plaintiff avers that he did not have the funds to do this, but engaged Evans who furnished between \$2500 and \$7000 for expenses in traveling East to see moneyed men. It was then arranged, it is said, that Evans should enter the agreement.

The plaintiff alleged that he obtained a loan of \$10,000 from Mrs. Newton of Los Angeles for Neeland, and also secured a large sum from L. Phillips, and presented the matter to Walter Green of Lyons, Colo., who agreed to enter into a project agreeing to furnish the necessary capital. On January 2, 1901, a contract was drawn, by the terms of which Kennedy was to have one-tenth of the stock of the stockholders and one-tenth of the profits derived from the two municipalities.

Evans then went to Chicago, the petition states, and organized the Pan-American Railway Company with a capital stock of \$200,000, and later, representing the Pan-American Railway Company, entered into a contract with Francisco Z. Mena, Secretary of State, and the Trustee of Wilmington, to restrain the defendants upon digging up and removing soil from grounds claimed by the plaintiff. The order was modified by Thompson, the complainant alleges, to the conduct of the general survey business about seventy-five miles of road, the plaintiff, or the dredging company was to strike the balance of the stockholders and the city of Los Angeles was substituted for the Wilmington officials. It was made necessary by reason of the consolidation of the two municipalities.

The dredging company was released from the restraining order so that it may go on with the contract with the Trustee of Wilmington dredging of the territory covered by the injunction.

The case of the people of California against the Southern Pacific Railway Company for the same land involved in this now-famous controversy, was postponed until October 8.

Regarding statements said to have been made by the plaintiff, the complaint sets out in what particular they are alleged to have been false and misleading. Among them is the statement that he is the owner of an undivided one-half interest in four monkey wrenches, when as a matter of fact he was only the owner of an undivided one-half interest in one monkey wrench.

The case of the people of California against the Southern Pacific Railway Company for the same land involved in this now-famous controversy, was postponed until October 8.

THE INFERIOR COURTS.

THREE ADOPTIONS ASKS  
COUPLES FILE PETITION.

Three petitions were filed in the Superior Court yesterday by persons desiring to adopt abandoned children.

Owen Rodgers and Anna M. Rodgers, his wife, petitioned to be allowed to adopt Harmon Baker, born of persons unknown in July, 1908, who is to be known as Leonard Walker.

Edward Morton and Ella Morton, his wife, ask leave to adopt Vicky Sammons, born January, 1908, whose father deserted the mother six months before the child was born.

SAYS SON WAS JILTED.

MOTHER TELLS OF LOVE AFFAIR.

The testimony of the mother of Ernest Grinton, the Sawtelle business man charged with insanity, was given in the hearing of the case before Judge Houser yesterday. The lady is bordering on 75 years of age, but is as bright as a dollar. Her delicious speech was a delight.

Her testimony was that she became a different man after he had been jilted by a Canadian school teacher, whose name did not appear in the record. That was about three years before she came to California.

"Oh, yes," she said, "we all understood that Ernest was to marry the girl. You see, Judge, they both sang in the church quartette, and were members of the Christian Endeavor Society. Ernest had a fine tenor voice, and sang in the church quartette."

"Were they engaged?" was the next question.

"Well, I don't know as to that, your honor, but the boy always said that she would soon be his, and his father and myself thought that meant he was going to be married."

As indicating Grinton's excellent mentality, it will be shown by the defense that a few days ago, Dr. George C. Chapman, a San Francisco lawyer, asked him a half dozen pages of questions relating to his life and career, and the accused answered every one of the interrogatories correctly.

The defense is in the same boat, and he completed the task in a shorter period than was allowed him.

PUTS FORGER AWAY.

SENDS HIM TO SAN QUENTIN.

Russell Sanders was remanded by Judge Willis yesterday to San Quentin for trial on the charge of having forged a draft for \$5 on the Pioneer Bank of Porterville May 4, which he succeeded in unloading on the Hotel Hayward. Sanders asked that he be allowed to go on probation, but the prayer was denied.

CONTRARY TO DEFENSE. The contests to open the probate of the will of John A. Mason, deceased, were postponed yesterday by Judge Rivers, until October 1 and September 22, respectively. The probate of the will of John A. Mason was granted out of one week. This is not contested.

INVESTIGATOR. The defendant in the case of John A. Mason, deceased, was remanded to San Quentin for trial on the charge of having forged a draft for \$5 on the Pioneer Bank of Porterville May 4, which he succeeded in unloading on the Hotel Hayward. Sanders asked that he be allowed to go on probation, but the prayer was denied.

ON THE PART OF THE DEFENDANT. On the part of the defendant it is denied that Watson was the victim of undue influence, and it is alleged that he was not the author of his own free will; that he had never been really affected in any way up to the time of his death that occurred when he was 77 years of age; that his only physical trouble was an attack of his eyes.

On the part of the defendant it is denied that Watson was the victim of undue influence, and it is alleged that he was not the author of his own free will; that he had never been really affected in any way up to the time of his death that occurred when he was 77 years of age; that his only physical trouble was an attack of his eyes.

## HOROSCOPE

Thursday, September 16, 1909.

**MUSIC AND THE STAGE.**

Now hearing greater him the last hour, all words be words. Mercury is in ecliptic conjunction this 28th day, and is in great favor. Venus permanence in connection with writings, printing, advertising and publicity generally. Letters written today are written under favorable circumstances, and great-reaching consequences, and great exercised in their preparation of matters at all important.

Minutes of great friendship will be given to their recipients, cheering them over a hard interval of time.

Travel is well advised, especially for artists, scientists, writers, newsmen, agents, commission men and all who represent others in a golden one.

Mercury rules the intellect but serving wit and ingenuity in large, venerable and dignified ways in this period.

In dealing with persons of various capacities, all agreements should be on this day.

Women employees should benefit. There is a sign of religious activity of the world.

"To be with neighbors" is in the way but and prosper during the month according to the way in which their companions on life's voyage. Children born this day are destined to make them the orderly and standing that everything shall stand—a good trait if not overdone.

## INDUSTRIAL PRO

ducible Vegetable Fiber.

A new fiber plant, somewhat similar to one investigated by the government, is believed to have been established at the mills and paper manufacturers. The plant show it to be about one acre foot long. The same is called "aramine," "quazime" and is found in South America, and it is a considerable area of land where it might be profitable to cultivate. Toy Manufacturing.

During the past few years the number of men and women has largely increased. In 1880, the number of men employed at the plant was 2,000, and the number of women 1,000. In 1890, the number of men employed was 3,000, and the number of women 1,500. In 1900, the number of men employed was 5,000, and the number of women 2,500. The growth of toy manufacturing has been chiefly in the United States, and especially among the larger cities of the country. ## CHILDREN'S CRUSADE TO FREE SLAVES OF CONGO.

Staple, Famous English Novelist, So Stirred by Iniquities of Belgian Administration That He Undertakes to Arouse Public Opinion on Two Continents. Pins His Faith to Women and Youth.

SPECIAL CORRESPONDENCE OF THE TIMES.

London, Sept. 2.—It is a common enough thing for a man to write a book in furtherance of a cause which he has at heart. It is not common for a man to become an enthusiastic advocate of a cause because he has written a book about it. In this case with H. De Vere Staple, the English novelist who is writing himself now to starting a new agitation having for its object the reform of the Belgian administration of the Congo, and the abolition of the horrors of cruelties which have been practiced there.

Mr. Staple wrote a book about the Congo which was published a few months ago. It was called "The Pool of Silence," and it portrayed in a stirring manner the terrible cruelties

which these heartless savages commit on the path of a new crusade in the name of the children who have been murdered, and the children who are being murdered, and the children yet unborn of the most miserable people on the face of the globe, whose charter bears the signatures of America and England.

## APPEAL TO CHILDREN.

"In America and in England are multitudes of great-hearted women; let some of these call the children of the nation around them, ask them to put their signatures, or if they are too young to do that, to put their initials, to the fathers of the nation, and ask them to give of their charity to a liberation fund. And set one great day apart for this great work."

"In the name of the children of the Congo, and you to appeal through their mothers, to the children of America and England, I am sick of politicians; they seem to have no power, am sick of the armament, the side and the navies used to protect trade routes; I am sick of expediency, and money, and lust, and greed, and gold. I see Morris standing like a new Savior and Prince of Peace, a movement tremendous and dramatic, Christ, so long denied, in the actions of his worshippers is watching: who will help? I see no one but the children."

Talking of how he came to feel so strongly on the subject Mr. Staple said:

"The desire to do something has been working inside me ever since I knew anything about the conditions in the Congo. I am a simple Englishman and every Englishman and American would feel the same way if they knew what I know, for we are all personally responsible. The nations to which we belong, the United States and Britain in 1884 by which these defenseless natives were turned over to Leopold and his employes."

"I have no hesitation in saying that we are all personally responsible for the Congo the wretched system of slavery that has been known in the history of the world."

## DOESN'T BLAME INDIVIDUALS.

"And after all I don't blame the individual Belgians so much. No doubt many of them are cruel beasts, but the conditions are something unlike any that we know anything about. You can't blame the Belgians for a company and make him collect rubber, and you can't have overseers for him as you can in the cotton field. You have got to send him into the forest and trust to him to gather the rubber, and trust to him to pay him, and the only trust you can have in him is the trust of rubber, he brings in. But nothing can excuse the horrible cruelties imposed on these poor people as punishment."

The following is the text of a statement which he has prepared, which is being signed by a number of prominent men and women in all departments of life, and which will be presented to the government in sufficient numbers of signatures have been obtained.

"We, the undersigned members of the church, the Lords and the Commons, the nobility and the gentry, the aristocracy and the middle class, come when England should stand on the faithful picture he had drawn of life in Belgium's tropical domain. He ever received abusive letters from Belgians who thought that they had him in their pocket, and some of his characters.

## MERCY, BUT NOT JUSTICE.

"Justice to the people of the Congo is the last thing that I think of; the misery and the ruin of eight years of misrule can never be atoned for; but mercy can at least be accorded to the miserable survivors of the people whose liberty was wiped away by a delinquent England at the Berlin Congress of 1884.

"It is not within the province of the manifesto to demonstrate how terrible the power places in the hands of the Belgian administration and at the present moment is being made.

The splendid labors of the Congo Reformation Association have accomplished that.

"Our object is to make a practical appeal to all sections of the public; to all heads of societies, to all the leaders of thought. We appeal to the Established Church of England, to the various non-denominational bodies to the universities and the public schools; to associations such as the Young Men's Christian Association, the Girls' Friendly Societies, the Sunday-schools; the Salvation Army, to the Presidents of England; to the bodies unions of the Chamber of Commerce; and we ask the leaders and head men of each and all of these sections of the bodies spiritual and political to join with the Congo Reformation Association and to speak to the governments of England and America to act in the matter before the time for action is past.

## A GREAT IDEA.

And now he has a great idea. He is going to start a children's crusade to free the enslaved natives of the Congo and to put an end to the inhuman cruelties which have been committed.

He is a modern crusader, and the sympathy of Sir A. Conan Doyle, the creator of Sherlock Holmes, who is also writing a book about the Congo and who has written to President Taft to speak in favor of the crusade, the governors and ministers of England at his back, but more than all these he places his faith in the children.

There are a few things nowadays to which the best and the brightest are heading to die out. The only idealist in my opinion worth a rap is the idealist who doesn't mind getting a black eye for the sake of his ideal; that was the spirit which moved the crusaders who have visited the Congo, and he made himself familiar with all that was written about it.

His pupil was that he was fired with an uncontrollable desire to do something in line about reform.

## CHAPEL EXERCISES.

Opening Day in Occidental College Celebrated With Speeches of Welcome.

Opening day chapel exercises at Occidental College were held yesterday morning and Dr. W. H. Robertson, president of the Occidental board, spoke of the growth of the college and academy whose combined student bodies eleven years ago were not as large as the present faculty.

Dean Ward welcomed the new members of the faculty, to which Dr. Burr, the president, had set forth in strong, earnest tones the policy of the college, which is along broad, Christian, non-sectarian lines.

## Lively Presentment of the Day's Interesting Happenings in Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PASADENA.  
SHE BELIEVES  
IN DR. COOK.Widow of Former Diplomat  
Is His Defender.Mrs. Conger Says Explorer  
Would Not Deceive.Mrs. Burdette in Health;  
Husband Improving.Office of The Times, No. 23 S<sup>th</sup> Raymond Ave.

PASADENA. Sept. 14.—"From my impressions of Dr. Cook I most assuredly believe that he is sincere in his claim that he has discovered the North Pole. I admire his quiet attitude in this question, and it would be regretted that Commander Peary has seen fit to question the doctor's honesty. It is a slur on Americanism. Both of these great explorers are Americans and should stand together for the glory of their country and not for their personal ambitions."

This opinion was expressed yesterday afternoon by Mrs. Sarah Pike Conger, widow of Hon. Edwin H. Conger, former Minister to China.

Mrs. Conger knew Dr. Cook in Brazil, where his husband was Minister from the United States to that country, and was much impressed with him during the week he spent at the legation.

"We met the doctor on the steamer on our way to Brazil," said Mrs. Conger. "He was at that time on an expedition to discover the South Pole and was to join the other members of the party at Rio Janeiro. He had made two trips to the north and told of his equipment and his work in the U.S. The man has changed greatly. I can only believe that he is sincere in every way."

"He impresses me as modest, resourceful and scientific. His ideas are too high to permit him to stoop to deception."

CREW DID NOT DESERT.

Dr. Leffingwell of San Rafael Heights refutes the report that his son, Ernest de Koven Leffingwell, was deserted by his crew in Alaskan waters. He says that, according to a letter just received, the son is now at Flaxman Island, about half way between Point Barrow and the McKenzie River. His father, the man has changed greatly, and he has taken up his studies in fossils there.

When Leffingwell left for the north, it was his intention to go some whaling and to that end he took along a whaling captain and six seamen. Ill winds were encountered and the ship was driven into a number of ways and when he reached Point Barrow he decided that the season was too far advanced for him to continue to the McKenzie River, where he intended to do his whaling. The crew had to make his crew back to Victoria.

MRS. BURDETTE IN HEALTH.

A feature of the annual meeting of the trustees of Throop Institute Monday night was the presence of Mrs. Robert J. Burdette, who appeared in good health and stated that her husband is improving at their summer home at Clifton-by-the-sea.

A. H. Clegg, Mrs. V. V. Veder and Dr. Norman Bridge were unanimously reelected directors.

The by-laws of the institution have been revised for the first time since 1898. One of the most important changes provides for a permanent Finance Committee.

Dr. James A. B. Scherer, president of Throop, presented his first annual report.

NEGRON'S HOUSE BURNED.

Andrew Kellor's home at No. 103 Second avenue was burned yesterday morning. He claims that all he left in the world is \$20 in bills. The money was in a wallet in the bottom of a trunk, and while the trunk was reduced to fragments, the pocketbook remained intact. The police are working on the case, but the house may have been set on fire.

BURGLARS, PERHAPS.

The residence of Prof. W. H. Howland, which has been closed during the absence of the family this summer, was the scene of a burglar scare Monday night. Two men were seen about the place and Oscar Coonsman, who lives just across the street away, leaving a bicycle leaning against a pepper tree in front of the house. Coonsman went into the house to await developments, and while he was there the men returned and took the bicycle.

FORM CANADIAN CLUB.

The organization of the Pasadena Canadian Club, of which James Barker is president; Mrs. Black of North Euclid avenue, first vice-president, O. A. Nickerson, secretary, and Dr. Filimore, treasurer. Committee have been appointed on membership, finance and headquarters.

MASS MAKE ARRESTS.

Officer Stillwell of the Humane Society yesterday disclosed the fact that members of an adjoining house on North Michigan avenue had bought cyanide of potassium, ostensibly to poison rats. These houses are in the heart of the district where so many dogs have been poisoned, and the officers believe that they have led him to additional facts which will enable him to make arrests. The society is determined to put an end to the poisoning of animals.

PLANT NEARS COMPLETION.

Superintendent Koenig of the municipal lighting plant expects to receive the remainder of the machinery for the completion of a new plant within two days. The largest item in this new plant is a 1,000-horsepower engine, which is already being set up. Eventually other generators are to replace the machines first installed, but not for several months. Until that time the plant will be operating two types of machinery.

PASADENA NEWS NOTES.

Judge McDonald is to be called upon to decide who was thrashed in a family row at the residence of Salvador Martinez of No. 711 South Raymond avenue. The man claims that his wife beat him. She tells another story.

On account of the illness of Secretary of State of Y.M.C.A. the annual swimming competition, which was to have been on September 22, has been postponed.

Richard Riehes, proprietor of a winery at Azusa, will be arraigned before Judge Kroll next week on charges of violation of the Federal law. He was released yesterday on \$200 bail.

May Be Installed.Park Superintendent Plans  
for Improvements.

SAN PEDRO, Sept. 15.—The Mayor, the Fire Commission and Chief Lips of the fire department spent several hours here today looking for a site for a pumping plant for a salt-water irrigation system.

Ben C. Dillingham, R. B. Williamson and Martin Betouski were the members of the commission in the party.

The only absent member was Richard Maloney, now in the East on leave of absence. Alfred Price, master mechanician of the fire department, was present.

CAUSES UNEASINESS.

A brush fire along the course of the Tongue irrigation ditch, south of this city, created some uneasiness this afternoon, but was brought under control by the employees of the Joseph R. Loftus ranch.

The county is spending from \$10,000 to \$12,000 a mile on road construction and it is the opinion of many here that this city, when the time comes, can build durable roads for considerably less.

The Board of Trade, which has passed a resolution recommending to the Trustees that the matter of voting good roads bonds be deferred for at least a year, or until the result of the work being done by the county can be learned.

Superintendent Monroe estimates the cost of repairing the roads in the city, as necessary, at \$10,000. The implements required cost but \$700, and the City Council has been requested to purchase them.

One hundred men employed by the Davis Construction Company, who have been enjoying a ten days' vacation, will be put to work immediately upon contracts that the company has secured in the city and adjacent points for street paving.

## DIPLOMATIC.

CRANE SPEAKS  
FOR OPEN DOOR.

## MINISTER TO CHINA WILL PROMOTE FRIENDSHIP.

Regards it as duty of United States to see that progress in China continues by keeping Nation from being imposed on and helping in needed reforms.

(ASSOCIATED PRESS DAY REPORT.) CHICAGO, Sept. 15.—More progress has been made in China in the last five years than in any century previous, and it is this country's duty to see that the advancement is continued.

Charles R. Crane, Envoy Extraordinary and Minister Plenipotentiary of the United States to China, thus summed up his views of the country in which he has been here. The United States in an address to 1500 statesmen and business men at a luncheon given by the Illinois Manufacturers' Association in the gold room of the Congress Hotel.

Mr. Crane, in a short address, said: "Anything for the welfare of China is for the welfare of the United States. The things we must keep in mind in our relations with China. It will be my endeavor to keep the trade open. We must help her and her people by making imports on and lend our assistance in her various needed reforms."

"I saw President Taft the other day and told him of the various unchances and receptions in the far East preparing for me and asked him what I had better do about it. He said: 'Accept every one of them and when you get home speak up and speak and speak it out red hot.'

"It was one of President Taft's speeches at Shanghai that made me write the newspaper that the first time President Taft's name was more widely known and more widely respected than the name of any foreigner in China."

## JAPAN'S FINANCES PROMISING.

Premier Kataura Addresses Bankers' Club of Tokio in Optimistic Spirit.

(ASSOCIATED PRESS DAY REPORT.) TOKIO, Sept. 15.—As was forecasted, the speech tonight of Premier Kataura Kataura before the Bankers' Club of this city, was a review of the financial condition of the country. He expressed the belief that the financial condition of the country is encouraging, and, while maintaining that the present system of taxation is unsatisfactory, expressed the hope to steadily improve it until perfection is reached. The Premier declared that the policy commenced the current year of the development of agriculture and the avoidance of unproductive expenditure will be consistently followed. He also expressed the hope that by lowering the rate of taxation the burden patriotic duty of the country on the section of the population could be relieved.

Marquis Kataura promised that for the ensuing year a sum considerably in excess of \$26,500,000 will be devoted to the repayment of bonds. He thanked the bankers for their cooperation and asked for the confidence and continued unity of the people in the government's policy announced toward the upbuilding of the country through good administration. Concerning the foreign relations of Japan were universally good. The Anglo-Japanese alliance, according to Kataura, will be continued, based on the basis of friendliest friendship.

He spoke of the warm relations between Japan and America, where the Japanese government men are now being entertained as leading and honored guests of a friendly nation, thus insuring closer unity and better understanding of intercourse between them. Premier Kataura deprecated any fear of trouble with America, however, by declaring that all outstanding questions between them would be settled by an exchange of concessions which would contribute to the assurance of peace to the entire world.

## MR. ROOSEVELT COMING HOME.

Leaves Paris for Switzerland and Will Not Wait for Arrival of Her Husband.

(ASSOCIATED PRESS DAY REPORT.) PARIS, Sept. 15.—Contrary to published reports, Mrs. Roosevelt will not remain in Europe until her husband returns from Africa. Mrs. Roosevelt left Paris with her children today going to Switzerland for a short tour, thence to Italy, and sailing from Naples or Genoa in a few weeks for America. It is asserted that this has been the plan all the while for the Roosevelt family, but a contrary impression was general. Next March, Mrs. Roosevelt will return to Europe, probably alone, to meet her husband and will remain there until his return.

Mrs. Roosevelt and her children are delighted with their stay in France. All are in excellent health.

## DUCHESS COMING OVER.

Former Miss Shantz, Who is Mother of a Little Duke, Will Visit America.

(ASSOCIATED PRESS DAY REPORT.) NEW YORK, Sept. 15.—The Duchess de Chauvelin, formerly Miss Theodore Shantz, and her baby, the Duke, will arrive here about September 25, according to Mrs. John A. Drake of Chicago, who, with her husband, came on the Kaiser Wilhelm Der Grosse from Bremen yesterday.

"I saw the Duchess and her baby the day before we left for the steamer and the Duke is both well and very well. The baby is a fine, healthy fellow. I believe when they come over, they will go to some place in Alabama for the winter."

## Will Street Illuminated Shells.

Experiments are now being carried out on German warships with acetylene shells, which it is believed will take the place of the electric searchlight used hitherto by warships. These shells contain calcium carbide, and the water can reach it through a tube. The shells are fired by a gun built especially for the purpose. On being fired the shell goes up, and the reaction of the water upon the calcium carbide produces the acetylene light. Each shell is said to have 3000 candle power and will burn for three hours.

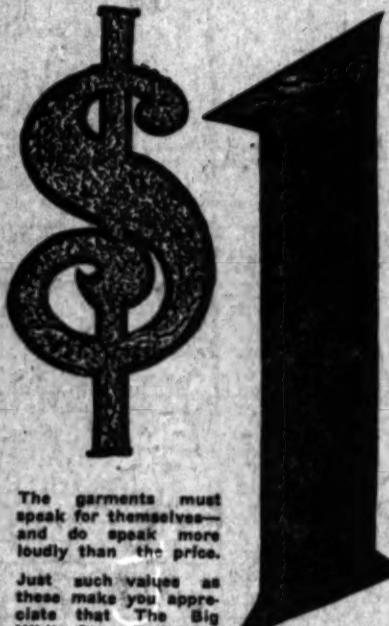

The searchlight is the only searchlight that is, that although it affords some protection from the unobserved approach of torpedo boats, it yet makes the warship using it an excellent target for new acetylene shell rounds. It will have the great advantage of lighting up a given space, while the vessel that fires it will be left in darkness. (London Globe.)

Expectations learned yesterday that their invitation to the International Congress to hold its next meeting in America has been accepted. The congress will convene in Washington in the fall of 1910. The American invitation was taken to Barcelona, Spain, where the congress has been in session this year, by Edwin Reed, one of the American delegates.

FANCY GOODS, ART LOVERS TAKE NOTICE—The Big White Store carries the most complete line of the celebrated Royal Society embroidered art goods. Package goods a specialty.

It's the biggest and best sale of the biggest and best values, at one of the comparatively smallest prices that we've ever announced. Remember, there isn't a garment or other kind of article sold at The Big White Store. "The Quality Store," at Eighth and Broadway, that isn't absolutely and positively guaranteed to give satisfaction. Then remember that we're now prepared to show our 1909 assortment of Milo Underwear for the Fall. Remember that this showing is the result of careful collection and selection from hundreds of different mills. Includes women's combination suits of French lace, low neck and sleeveless, with lace-trimmed, medium or cuff knee; lace with low necks and short sleeves, and either cuff or loose knee. Here's a line that every woman should see. The garments are made to fit the form like the glove to the hand. Garments that feel comfortable and look the part. They're stylish, smart, well finished.

LOW NECK, SLEEVELESS SILK LISIBLE VESTS IN PINK, WHITE OR BLUE—These have hand-crocheted yokes and are the kind of garments that will prove immediate and lasting favorites.

HIGH NECK, LONG SLEEVE SILK LISIBLE VESTS OF BEAUTIFUL APPEARANCE—This is a special line that particular dressers should look at. You'll surely be pleased with the various models.

CHILDREN'S VERY FINE HIGH NECK, LONG SLEEVE, ALL-WOOL VESTS.

ANKLE LENGTH PANTS TO MATCH THESE VESTS ARE INCLUDED AT THE SAME PRICE—BOTH ARE BIG MONEY-SAVERS.
